

for new creative removable publicity

 easycling®

◆ Whether on shop windows, building walls or town billboards

our EasyCling film adheres solely due to the static charge on almost every surface, without glue or tape. They can be taken off and reused. EasyCling is printed single sided but adheres to both front and back.

◆ Why is EasyCling so unique?

- *Very high static charge level*
- *It adheres quickly to the majority of clean and dry surfaces*
- *Does not leave any residue*
- *Easy to install and remove*
- *No damage to surface*
- *Environmentally friendly*

◆ EasyCling does not use adhesive

so there is no sticky residue when it's removed. EasyCling adheres to glass, wood, metal, brick, plastic, drywall, or textured wall surfaces and many other. It's repositionable, gliding over surfaces, which makes placement and removal a snap!

◆ Printing suitability

- *Sheetfed Offset and UV Offset printing*
- *Can be kiss cut, die cut and perforated*
